

App to read pdf out loud iphone

I'm not robot!

Skip to content Something went wrong. Wait a moment and try again. iOS 10 and more recent versions offer a range of hidden features which users have been discovering over time — one of such is that the operating system has capabilities that allows read just about any text to the user. While this offering is disabled by default, you can enable it so that your iPhone, iPod, or iPad, read any text aloud. However, if you don't want use this method, a number of amazing apps that read PDF to you out loud. Read on to learn how to read PDF on iPhone. Top 5 PDF Book Reading App 1. Default Text-To-Speech for iOS To use iPhone PDF voice reader that comes with the device by default, take the following steps: Launch the "Settings" app displayed on your home screen. Tap (or select) the "General" tab. Scroll down and open the "Accessibility" tab. Tap the "Speak Selection" feature (this option should be set to "off" at the moment). To put it on, tap the "toggle switch." Also, you can adjust the speech rate. But it is pertinent to note that the default could be the ideal rate. If any adjustment is necessary, it could be to slow it down. Once the "Speak Selection" is enabled, simply highlight your desired part of the text the same way you would while copying it; the only difference here is that you would press the "Speak" button instead. This option will read "Pause" as the text is read, allowing you stop it whenever you want. 2. NaturalReader Text to Speech This is a text-to-speech app for reading documents, eBooks, and web pages aloud.
